# SADIE WALKER

I am a hardworking, driven Computer Games Technology graduate, self-taught in web development for the past year and am hungry for the opportunity to grow within a professional environment. I'm always striving to better myself with education and opportunities to develop and enhance my knowledge. Working with a team of professionals in an organisation would be an opportunity I would devote myself to.

## SKILLS

- **TEAM WORK & COMMUNICATION** - Having worked in many team settings I truly understand the importance of communication within a team, and doing your bit for the teams' goals.
- **SELF-SUFFICIENT** - From university work to teaching myself to code, I have developed an ability to self motivate, educate and organise myself for any task.
- **DETERMINATION** - Once a decision is made, I am always resolved to see it through. Putting my all into my work is something I pride myself on; I am eager to do the same now with a career in web development.

## JOB EXPERIENCE
